

# Chat app

---

## - Installation

## - Super Admin:

## - LOGIN

- As a Super Admin, someone give me my credentials (done by creators)
- As a Super Admin, I can create Department/Admin profiles (web only)

## - FLOW

- I open the website
- I see login page
  - Login page has email
  - Login page has password
- I am on my dashboard
- I can see a list of existing departments
- I click on "Create Department"
- Then I am shown with Create Dept form
  - Form has following fields
    - Name
    - Location
    - Admin email

- Then I click the next button
- Then I can see the new department in the list
- And the service should send invitation email to the email id mentioned above

**EMPLOYEE:**

- As an Employee, I can register with a department (app only)

**REGISTER:**

**- FLOW**

- I install the app
- I Click on register
- I fill my details in employee registration form
  - Form has the following fields
    - Name
    - Empld
    - Aadhaar
    - Phone no.
    - Email Id
    - Department
    - Location
    - Designation
- Then I click on the next button
- Then I receive a OTP

- I fill in the OTP on the next page
- Then I Enter into the Homepage

### **LOGIN:**

- The Employee has to login every time he changes his phone or reinstalls the app
- The login page consists of:
  - Empld
  - Phone no
- Then he will receive the OTP
- He will fill the OTP
- He then enters the app Homepage

### **EMPLOYEE HOMEPAGE:**

- He can see 3 tabs (Events, Sessions, Broadcast)

### **SCENARIO 1 (Sessions):**

- He can see the Permanent session at the top (in which all employee are present in that department)
- He can see the Temporary sessions he is currently in.
- He can see a button on the bottom right corner which is a '+' symbol.

#### **SCENARIO 1.1 (Permanent Session):**

- He enters the permanent session by clicking on the Permanent session card.
- He can see the previous messages sent by him and others with their name and designation.
- At the bottom he can see a text box and a '→' symbol.
- He can send a message by typing it in the text box and hitting the send button, which will be received by all employees in the department.

- At the Top right he can see 3 dots (options), in that he has a option to search and to attach files.
- \*\*\*If he clicks on search then he has to type the messages to be searched in the bottom text box only.
- If he clicks on attach files then he will have to select the file type and then attach it by browsing.

### **SCENARIO 1.2 (Temporary Session):**

- All features mentioned in Permanent sessions will be present in Temporary Session

#### **SCENARIO 1.2.1 (Temporary Session and session admin):**

- The session admin can click on the 3 dots (option) and he will see 2 more options i.e. Lock and delete
- By clicking on lock no one can send messages
- By clicking on delete the session is deleted

### **SCENARIO 1.3 (Creating Temporary Session):**

- The employee can create a session by clicking on the '+' button.
- He is then shown a page with the list of all employees in it from his department, he can slide towards the right and will be able to see a list of departments, he can click on the department and the list of employee's will get updated.
- Once he has selected the employee's he will click on the next button.
- A session invite will be sent to the employee's selected, if and only if they accept then they will be added.
- He then will have to fill the name of the session.
- The session is now created and he can send/receive messages.

### **SCENARIO 1.4 (Accepting Temporary Session):**

- The employee will receive a notification when he has a session invite.

Wednesday, 21 March y

- He then goes to the broadcast tab and sees a card of the sessions, the card consists of the name of the session admin, session name.
- He then can click on accept or decline.
- Clicking accept puts him in the session, as a result he will be able to see that session in his session homepage.
- Clicking decline wont make any changes, and he wont he added to that session.

### **SCENARIO 2 (Events):**

- The employee has to swipe to the right or click on the event tab to enter the event homepage.
- He can see the list of upcoming and past events in a chronological order.
- He can see the name of the event, date-time, event admin, venue.

#### **SCENARIO 2.1 (Creating Events):**

- He can click on the '+' button on the bottom right to create a event.
- He has to fill in the event name, venue, data-time.
- He then hits next, and a event is created.

### **SCENARIO 3 (Broadcast):**

- The employee has to swipe to the left or click on the broadcast tab to enter the broadcast homepage.
- He can see the list of broadcasts in a chronological order.
- He can see the name of the description of the broadcast, date-time, employee who sent.

#### **SCENARIO 3.1 (Creating Broadcast):**

- He can click on the '+' button on the bottom right to create a broadcast.
- He has to fill in the description.
- He then hits next, and a broadcast is sent.
